

DEN JOHN EMMANUEL CABRIA

IT Graduate · Full-Stack & Mobile Developer · Detail-Oriented Problem Solver

Sorsogon City, Philippines | 09515477844 | denjohncabria@gmail.com | linkedin.com/in/denjohn-cabria-6221ab401 | github.com/mawi1C

EDUCATION

THE LEWIS COLLEGE OF SORSOGON

Sorsogon City, Philippines

Bachelor of Science in Information Technology

2022 – 2026

- Coursework: Full-stack development, database management, mobile application development, systems analysis and design.
- Led a capstone project from concept to deployment, coordinating a cross-functional team and managing project timelines.

WORK EXPERIENCE

PHILIPPINE STATISTICS AUTHORITY

Sorsogon City, Philippines

Data Encoder Intern

August 2025 – December 2025

- Handled confidential data in compliance with government data privacy and management standards.
- Developed efficient workflows for daily encoding tasks, reducing processing time and minimizing errors.
- Collaborated with supervisors and colleagues to ensure data integrity and timely submission of records.

KEY PROJECTS

PAWFIND – AI-BASED PET SEARCH MOBILE APPLICATION

2025 – 2026

Capstone Project

- Designed and built a cross-platform mobile application, serving as the lead developer for a team project.
- Integrated AI-assisted features to analyze animal behavior and assist users in locating lost pets.
- Coordinated team workflow through Git and GitHub, ensuring clean version control and code collaboration.

DENTAL CLINIC MANAGEMENT SYSTEM

2026

Personal Full-Stack Project

- Developed a complete clinic management web application independently, from design to deployment.
- Built core modules covering appointment scheduling, patient record management, payment tracking, and automated reminders.
- Demonstrated ability to deliver a real-world business solution using modern web technologies.
